DETAILED ACTION

Allowable Subject Matter

1.   Claims 1-7,9-18,20-27,29-33 are allowed over the prior art of record.

2.   The following is an examiner's statement of reasons for allowance:

As per the independent claims, the claim recitations pertaining to the handling and timing

of the loading and unloading of grammars based on application information is not explicitly

taught by the prior art of record.

With respect to the prior art of record, <u>Balakrishnan (6,233,559)</u> teaches receiving

information about a recognized phrase from a speech recognition engine (col. 4, lines 18-19 and

31-33); selecting, based on the recognized phrase an inherent handler function and handling

information from sets of handling information associated with a different application, based on

identifying the application that is a focus of the recognized phrase (col. 4, lines 35-40 and 47-

51;col. 5, lines 1-5; col. 4 lines 40-66). <u>Scott et al (6101473)</u> teaches the speech server to be

separate from the applications themselves (Fig. 7). <u>Schmid et al (6957184)</u> teaches the concept

of a CFG tracking the requirements of the current applications, and dynamically loading and

unloading the grammars according to the application requirement (col. 5 line 65 – col. 6 line 4;

col. 6 lines 25-42).   However, the combination of the references would teach loading a grammar

from an application, and not based upon the detection of a particular application being loaded as

well as unloading the first grammar and loading a second grammar when detecting the change.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
